

QM Express

The New Multi-user Assessment and Response Solution
from **LEB Partnership**
In Association with **Redkite Systems**

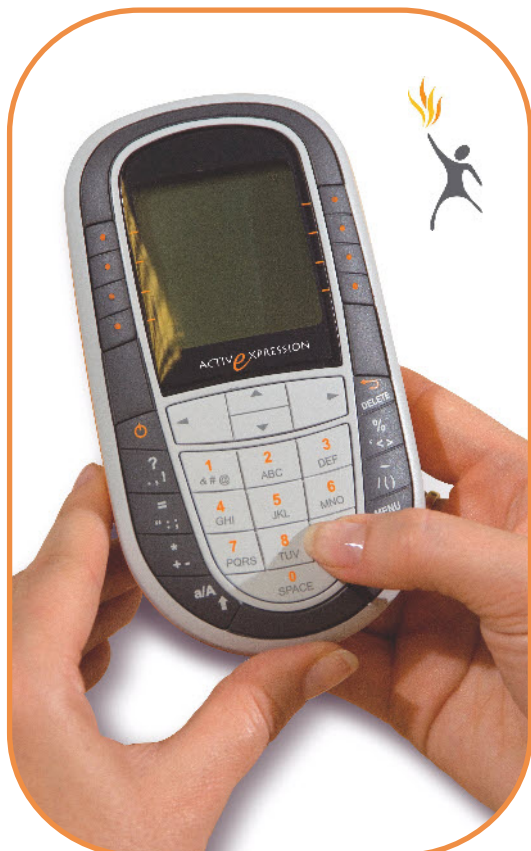

QM Express is a new and innovative assessment and response solution that utilises the versatility of the world's most advanced learner response system, Activexpression from Promethean.

The system encompasses two programs, QM Express, developed in association with Redkite Systems to allow integration with Redkite Question Master, and Promethean's latest Activexpression software providing powerful tools to further enhance its value for your training and assessment needs.

The Activexpression handset, though simple to use, has full sentence and character texting options, providing staff with a vast and dynamic range of response types.

LEB Partnership have worked closely with Redkite Systems so that QM Express and Question Master work together as the perfect solution for whole group assessment. If you would like further details or would like to book a free onsite demonstration, then please contact Redkite Systems Ltd

QM Express Features

- Integration with Redkite Question Master, allowing for export and import of assessment questions
- Instant feedback and reporting for individual and whole group assessment
- Can be used with or without any type of whiteboard or classroom display
- Create your own tests for revision or enhance existing ones with simple authoring tools
- Ad hoc question at any point during session

QM Express Benefits

- Multi-user/whole group assessment removing the need for individual computer terminals
- Instant feedback allows for reinforcement of weak areas while still in session
- Can be applied to any course material/subject
- Excellent for meetings and discussion to gather anonymous responses
