

PDS E-learning Module

- ✓ Flexible and scalable – there is no limit to the number of packages you can upload for delivery on the system or link via URL.
- ✓ Users select learning packages appropriate to their needs from a user-friendly screen.
- ✓ Web based – staff can undertake learning from any location, at any time.
- ✓ Learning resources can be accessed on 'smart' phones.
- ✓ Integrates seamlessly with Redkite Tracker.
- ✓ Assessment questionnaires can be linked to your e-learning packages using Redkite Question Master.
- ✓ Assessments in Question Master can be mapped to and 'tick off' training requirements.
- ✓ Assessments in Question Master can be mapped to units of competence in Redkite Tracker to provide substantiating evidence of knowledge and understanding.
- ✓ Option for invigilated or non-invigilated assessments.

CMS E-learning Module

The Redkite CMS E-learning module will deliver most computer based learning packages. Linked to Question Master it can assess, mark, score and record outcomes.

1. CMS E-learning handles any computer based training or learning package.
2. Computer Based Training / Learning resources can be downloaded from 'Redkite Skybank' – a library of FREE resources provided by customers.

There are no restrictions on the number of people who can use an e-learning package.

3. Where a learning resource is required to be assessed then the package can be linked to an appropriate assessment using CMS Question Master.

Users can be 'enrolled' onto e-learning resources via CMS Tracker – this will ensure that required e-training is undertaken as required to maintain competence.

4. On completion of the e-learning the system will record that the resource has been used. If the resource is linked to an assessment in Question Master, then the appropriate assessment will be delivered and marked, and the results stored in the individual's personal portfolio.

5.

FREE 'Redkite Skybank' resources

You can download FREE quality assured learning resources from 'Redkite Skybank'. You can also upload resources to 'Redkite Skybank' for quality vetting and inclusion. 'Redkite Skybank' is a free service managed by Redkite Systems on behalf of our customers.
